

NO VENUE CHANGE IN THE M'NAMARA TRIAL

Defense's Attorneys After a Conference Agree Not to Press Motion For Change of Jurisdiction

CLAIM FAIR TRIAL CANNOT BE HAD IN LOS ANGELES

Preliminary Examination of Veniremen Reveals Fact That But Few Want to Decide Case of Brothers Accused of Dynamiting Los Angeles Times Building---Trial Proper Will Begin Tomorrow Morning.

By John J. McNamara.

On the eve of my trial on the charge of murder, I appreciate the opportunity through the United Press of reiterating to the thousands of wage-earners of the country my absolute confidence of acquittal.

Kidnaped without a warrant, my innocence has upheld me through many trying hours, and I am glad the time is approaching when the extent of the gigantic conspiracy which deprived me of my liberty will be shown before the people I was never more certain than now that justice will be done and freedom restored to me after my vindication here.

Los Angeles, Oct. 10.—Following a conference between counsel for John and James McNamara the defense decided not to press their motion for a change of jurisdiction when the trial of the two men charged with dynamiting the Los Angeles Times opens tomorrow.

Attorney Clarence Darrow, chief counsel for the defense, asserted that he was satisfied with Judge Bordwell's refusal to grant a change of venue. Darrow insisted that the preliminary examination of jurymen showed the impossibility of the McNamaras obtaining a fair trial in Los Angeles county.

Columbus, Oct. 10.—Detective Wm. J. Burns who arrived in Columbus today from Chicago on his way to New York said that he did not expect to be in Los Angeles to aid in the prosecution of the McNamaras until the first of next week. "The McNamaras will get a fair trial in Los Angeles," said Burns. "The difficulty in getting a jury was to be expected."

Los Angeles, Cal., Oct. 10.—Retracting his and his brother's innocence of the charge of killing a score or more of persons through an explosion of dynamite which destroyed the Los Angeles Times John J. McNamara, secretary-treasurer of the Iron Workers' Union today expressed his confidence of acquittal in the trial which having here tomorrow. Both sides are ready, the preliminary jockeying for position has ended and the fight for the freedom of the McNamara brothers will continue to the bitter end.

When Judge Walter Bordwell called the trial at 10 a. m. Wednesday only 54 veniremen will respond to their names, all of the others of the first venire having been excused for various causes offered yesterday. It seems however, from the attitude of the 54 remaining that it is unlikely that even a tentative jury will be secured from the list. It will be necessary, however, to exhaust the original panel of 125 before summoning a second venire.

Interest in the trial is intense and the demand for seats the greatest in the criminal history of the country. Immense crowds are expected in and around the court building during the trial of the cases and the greatest precautions are being taken to prevent demonstrations tomorrow during the transfer of the McNamaras to and from the hall of records. Both sides are resorting to ruses to conceal from each other their intentions regarding the trial and the entire case will probably be conducted in a haze of secrecy. The city is honey-combed with detectives employed to watch the attorneys and witnesses of both sides.

When court opens tomorrow Attorney Darrow will formally move a change of judge on the grounds of utter prejudice. Judge Bordwell will immediately refuse to grant the motion and the defense will then demand separate trials. This will compel the state to elect which case shall go to the jury first.

After that the selection of the jury will be immediately begun and it is generally expected that the remainder of the first venire will be exhausted within the day.

Adjournment will probably follow

Friday when a second venire of 125 will be served.

Facts of the Case in Brief.

The Times building at First street and Broadway, Los Angeles, was destroyed early in the morning of October 1, 1910.

General Harrison Grey Otis, owner and publisher of the Times, was in Mexico when the explosion occurred, and hastened home. Twenty-one persons were killed in the disaster.

A special grand jury to investigate the disaster was assembled October 25, 1910. It returned a verdict that the Times was destroyed by dynamite.

General Otis, through the columns of the Times, charged union labor with being responsible.

Union labor leaders denied the charge and offered a reward of \$5,000 for evidence leading to the arrest and conviction of the guilty parties.

Twenty-three indictments were returned by the grand jury on January 5, 1911, Earl Rogers, a Los Angeles attorney employed by the Merchants' and Manufacturers' Association, presented the evidence. The indictments were secretly filed and bench warrants were issued.

On April 12, 1911, James B. McNamara and Orrie R. McManigal were arrested in Detroit, Mich., by operatives of William J. Burns' National Detective Agency.

On April 22, 1911, John J. McNamara, international secretary of the Bridge and Structural Ironworkers' Union, was arrested in the offices of the union in Indianapolis.

After a hasty arraignment—according to union men, before an incompetent judge—John McNamara was brought to Los Angeles by California deputy sheriffs and Burns' Detective Agency operatives. James B. McNamara and Orrie McManigal were also brought west at the same time but by different routes. All three were lodged in the city jail in Los Angeles.

On July 5, 1911, the two McNamaras and McManigal were given their preliminary examination. McManigal was charged with dynamiting the Llewellyn Iron Works in Los Angeles on December 25, 1910. The two McNamaras were charged with responsibility for the Times explosion and were held for trial on a charge of murder without bail.

Superior Judge Walter Bordwell set the date for their hearing as October 10, 1911.

Charonological Story of the Alleged Dynamiting of the Los Angeles Times.

During August and the early part of September, 1910, three men, whom the prosecution claim to have been James B. McNamara, M. A. Schmidt and David Caslan, registered at various hotels in Los Angeles and San Francisco under various names. It is claimed that the men who were known as Jas. B. Bryce, M. A. Schmidt, D. Caslan, A. J. Bryson, F. A. Perry, J. B. Leonard and William Morris variously during this time compelled preliminary arrangements for the dynamiting of the Times building, including negotiations for the purchase of dynamite from the Giant Powder Works at Giant, California and the renting of the launch Pastime, also known as the Peerless, for use in transporting the dynamite.

Sept. 20.—On the pretext of using the Pastime for a tour of San Francisco Bay, Schmidt and Perry deposit \$500 with E. H. Baxter, part owner of the launch, to secure against possible damage.

Sept. 22.—Schmidt under name of William Morris, arranges for the delivery of dynamite, previously ordered, on board the launch Peerless at the factory at Giant. On the same day the owner of the launch discovered that the name Pastime has been changed to Peerless by means of aluminum letters, later discovered to have been purchased from the Moiso-Klicker Co.

Sept. 23.—Schmidt and Perry leave Sausalito in the Peerless and arriving at Giant are assisted by a third man in placing the dynamite on board the craft.

Sept. 26.—The Pastime is returned to one of the owners, David Burrows, and the money on deposit is returned after all allowances have been made for minor injuries. Examination proves

that another name-plate has been placed over the name Pastime.

Sept. 29.—Schmidt and Perry arrive in Los Angeles. Perry goes to the Hotel Chapman, where he refuses to allow a bellboy to carry two heavy suitcases. Schmidt goes to the New Baltimore Hotel, registering as Bryce.

Oct. 1.—The Los Angeles Times building is blown up, 21 persons losing their lives as a result of the disaster.

October 2.—Schmidt and Perry leave Los Angeles for San Francisco where they go to the Arcade Hotel.

October 13.—Ten cases of dynamite, later identified as part of the purchase made at Giant, are found in a vacant house at 1622 Nineteenth street, South San Francisco.

Oct. 17.—The tarpaulin in which the dynamite was wrapped is identified as the one sold to William Gapps of 1665 Grove street, San Francisco. W. P. Lawson and D. Saplan had been living at that address.

Oct. 18.—Mrs. Belle Lavin at whose lodging house Schmidt lived while in San Francisco, is arrested on an information and belief warrant charging murder. She is taken to Los Angeles as a witness before the coroner's jury. W. P. Lawson is found by the police. Caplan has disappeared, deserting his wife and children.

Sept. 25.—Special grand jury is sworn at Los Angeles. Witnesses are summoned from San Francisco and the taking of testimony begins.

Jan. 5, 1911.—Twenty-three indictments are returned by the grand jury.

GRANTS LEAVE TO FILE EXCEPTIONS

Columbus, Oct. 10.—Without ruling on the question whether or not Common Pleas Judge Dickson of Cincinnati had a right to quash the perjury indictments against George B. Cox, Cincinnati political boss, the supreme court today gave Prosecutor Hunt of Hamilton county leave to file a bill of exceptions to the ruling of Judge Dickson.

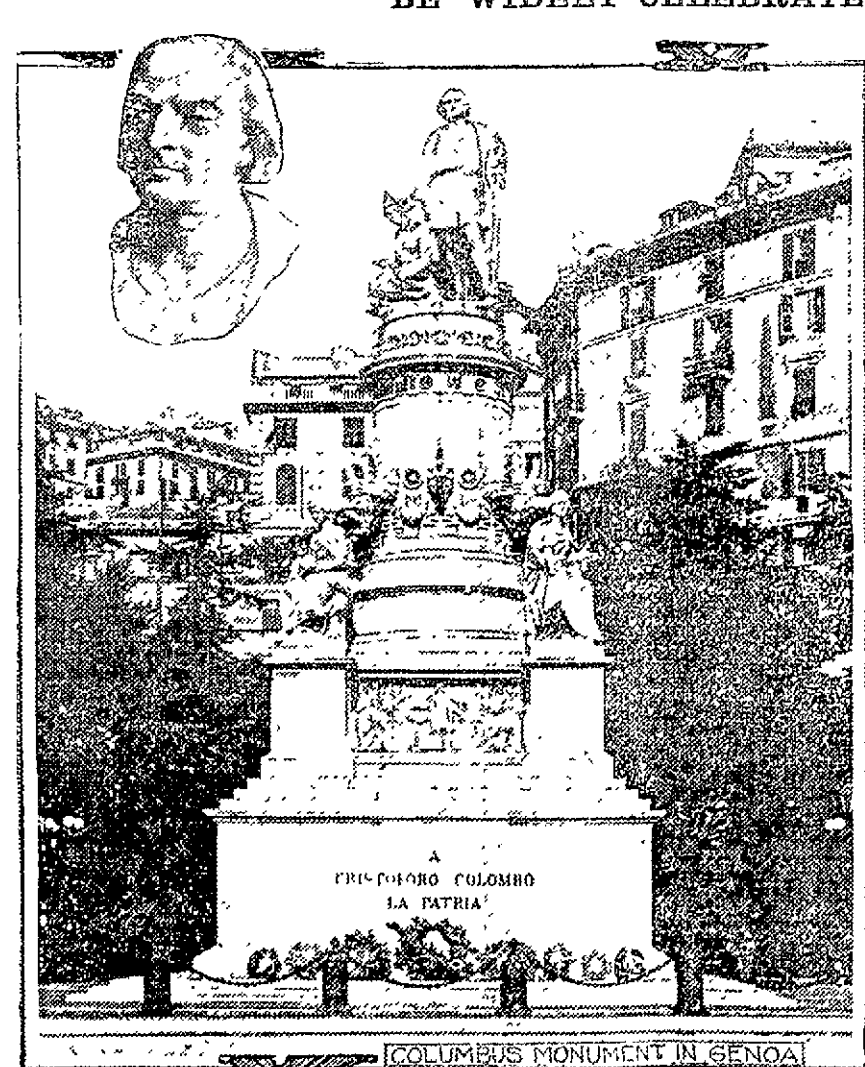

OIL KING AFTER TAX REDUCTION

Cleveland, Oct. 10.—Declaring the valuation placed on his East Cleveland property to be excessive John D. Rockefeller today asked the state tax commission to lower it. Rockefeller says the property in question is worth only \$439,000, while it has been placed on the tax duplicate for \$950,000. The commission has written the oil magnate that it will consider his request in due course.

BIG DAIRY SHOW OPENS TONIGHT

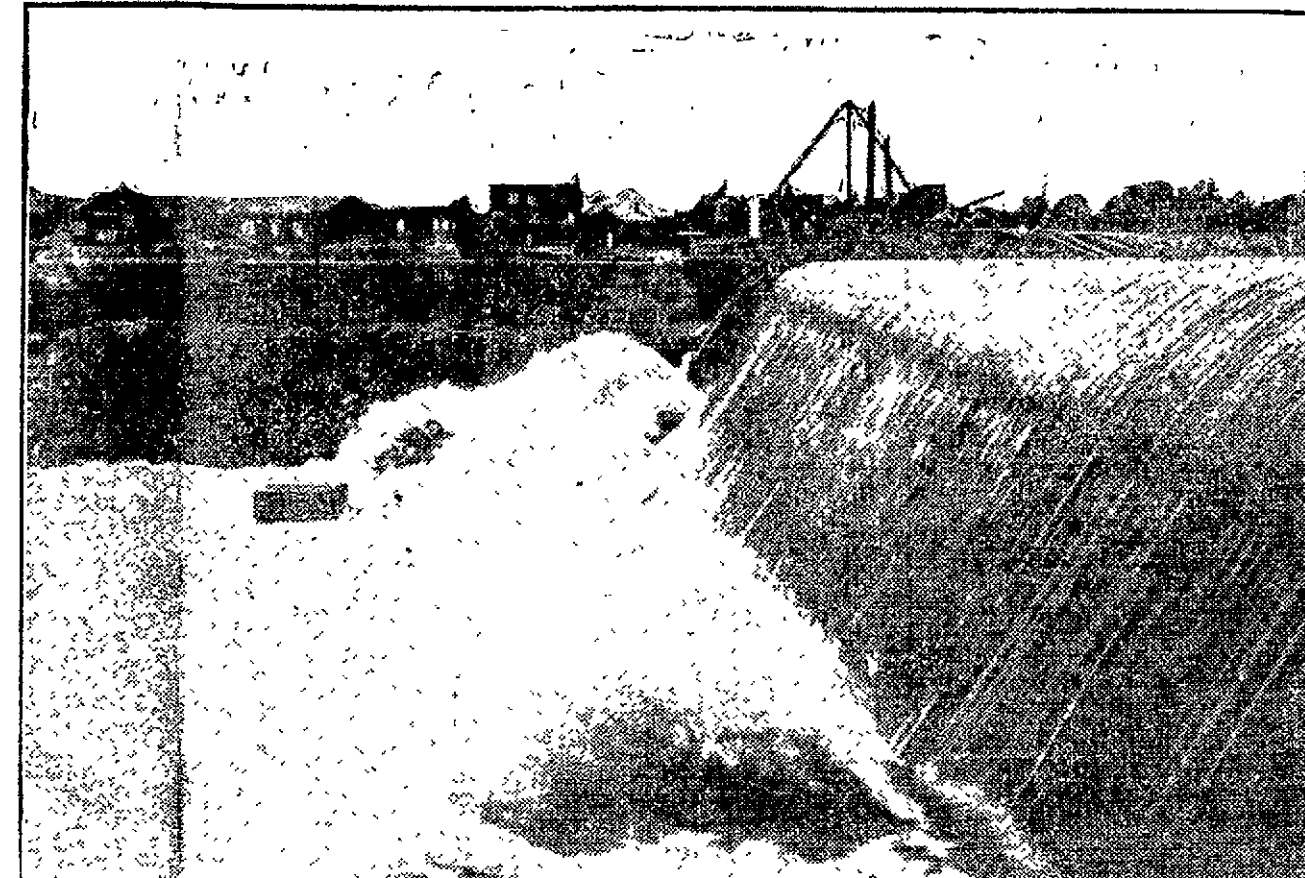

Milwaukee, Wis., Oct. 10.—Secretary of Agriculture James B. Wilson arrived here today and will formally open the first annual exhibition of the International Dairy Show Association with an address this evening. Over 700 prize cattle from almost every state in the union with an aggregate value of \$5,000,000 were on hand today. Promptly at 8 o'clock tonight President Taft in the far west will press an electric switch which will start machinery in operation which demonstrates modern methods of milking and making butter.

COLUMBUS DAY, OCT. 12, WILL BE WIDELY CELEBRATED

New York, Oct. 10.—Columbus day, Oct. 12, will be celebrated in many states of the country. Colorado was the first state to recognize the discovery of the continent and New York the latest. Thirteen in all have made the day a legal holiday. The illustration shows Columbus and the handsome memorial erected to him in Genoa, where he was born.

VIEW OF THE HATFIELD, (WIS.) DAM BEFORE IT BURST AND DESTROYED PROPERTY WORTH \$2,500,000—TROOPS GUARD VALLEY

LaCrosse, Wis., Oct. 10.—The losses arising from the collapse of the Black River dams at Dells and Hatfield now total \$2,500,000. Preparations have been made to dynamite the ruins of the Black River Falls municipal power plant in an effort to clear the channel of masonry which now throws the force of the flood current against the city. The Black and Mississippi rivers are rising rapidly at this point, and thousands of acres of farm lands north of here are under water. Farmers have driven their stock to the highlands, and many have moved household goods from their residences.

Madison, Wis., Oct. 10.—State troops have proceeded to Black River Falls to guard the property wrecked by the flooding of Black River. Governor Francis McGovern has been in constant touch with the city officials of Black River Falls and other flooded towns. Municipal officers expressed the opinion that troops could best aid the flood sufferers, and the governor offered several companies to the scene at once.

RODGERS LEAVES FOR KANSAS CITY

Springfield, Ill., Oct. 10.—Aviator G. P. Rodgers, coast to coast flier, put his machine into the air at the state fair grounds at 8:44 a. m. today, bound for Kansas City. He will follow the Chicago and Alton tracks. Rodgers arrived here at 6 o'clock last night.

FOUR KILLED IN EXPLOSION AT WHEELING

Wheeling, W. Va., Oct. 10.—Two men, one woman and a child were burned to death early today when the three story building occupied by Ed. Kaloniski was wrecked by an explosion, afterwards followed by a fire.

THE DEAD.

N. Letuck
Mrs. Ed. Kaloniski
Mary Kaloniski, aged 3.
Unidentified man.

The explosion is believed to have resulted from escaping gas.

The first floor was occupied as a grocery store while the second and third floors were used as a lodging house. Between 25 and 30 roomers were asleep in the house at the time. Owing to the excitement which prevailed there was some doubt as to whether all escaped. The loss will reach \$25,000.

TREASURER CREAMER FAVORS A PRESIDENTIAL PREFERENCE LAW

Columbus O., Oct. 10.—State Treasurer D. S. Creamer, in a statement issued today comes out flat-footedly in favor of a presidential preference law that will enable the voters in each party in Ohio, instead of the political machines, to dictate the course of the Ohio delegations in the national convention next year.

If Governor Harmon calls a special session of the legislature to pass a new congressional reapportionment act, Creamer says that the solons should by all means pass both a presidential act and a state officers primary act while they are here.

"Under the present system in Ohio," says Creamer, "delegates to the national conventions are not bound to follow the sentiments of their constituents in the matter of voting for presidential candidates. Sentiment could be overwhelmingly in favor of a certain presidential candidate throughout the state, yet the

SENSATIONAL CHARGES MADE OF CONSPIRACY TO DRIVE LORIMER OUT OF POLITICS

Chicago, October 10.—Sensational charges that a conspiracy was on foot to drive William Lorimer out of politics in Illinois were made today at the resumption of the Lorimer hearing by Judge Haney, representing the Illinois senator before the senate investigating committee. The committee wanted to know what bearing this had on the Lorimer hearing. "I want to show that a gigantic conspiracy exists to drive Senator Lorimer out of Illinois politics by fair means or foul and that this conspiracy is fostered by the Chicago Tribune, by its editor Jim Kelley, by its owners, Joseph Patterson, Medill McCormick and others and by Roy O. West, Deneen campaign manager and by the governor of Illinois himself," said Haney. "When the prosecution wants a pliable witness to come here and tell his story which has not before been told that witness is always forthcoming. The Chicago Tribune representing \$10,000,000, and other newspapers engaged in the conspiracy continually furnish money for new witness to besmear the character of Senator Lorimer."

SIX KILLED IN COLLAPSE OF BUILDING

Boston, Oct. 10.—Three men were killed and at least six others are thought to have been crushed today shortly before noon when a six-story building under construction collapsed. The bodies have not been recovered.

IMPORTANT CASES READY FOR HEARING BY SUPREME COURT

Washington, Oct. 10.—The hearing of arguments before the supreme court of the United States, which convened yesterday for the October term, will start today and some of the most important cases that ever confronted that body will be heard. Today the first of the important cases which have been assigned for hearing before the call of the regular docket will be taken up.

The question of how far the state railroad commission may exercise control in reducing or adjusting rates on intra-state commerce without conflicting with federal control of interstate commerce; the question of the constitutionality of the initiative and

FRANCE BLAMED FOR WAR

High Official of German Foreign Office Makes Statement

EXPANSION OF FRANCE

In North Africa Was Feared by Italy---Transports Sail From Naples.

Berlin, Oct. 10.—Full responsibility for the Turko-Italian war was placed today by a high official of the German foreign office at France's door. Astonished at the apparent impression in the United States that the fatherland was behind Italy's declaration of hostilities, this functionary, whose position is so important as to give his utterance practically unofficial significance, gave the United Press the following interview today as a means of setting his country right with the American people:

"The government is astounded to learn of the conclusions and impressions of a part of the American press that Germany is held responsible for Italy's war politics. No Agadir but the breaking of the Algeiras act by France in sending an expedition to Fez is responsible for the present situation.

"Italy feared the further aggression and expansion of France in North Africa and determined to secure for herself the only remaining piece of North African coast—Tripoli.

"The situation in Europe became somewhat doubtful and critical when France virtually purchased Morocco from England and Italy by giving up all claims to the two remaining provinces—Egypt and Tripoli.

"Assured therefore that England and France would place no obstacles in the way of acquiring Tripoli, Italy determined upon the action it has taken.

"Germany did not initiate it, had no part in it, was not informed until too late and therefore strongly declines to accept responsibility for the present war and the possible consequences that it may entail to the peace of Europe. Germany is energetically working for the quick restoration of peace."

London, Oct. 10.—An official dispatch from Naples states that twenty transports have sailed from that port for Syracuse where they will be joined by the second division of the Tripoli expedition.

The ubiquitous Turkish torpedo boats which have been reported from every point in the Mediterranean, have been discovered lurking off Sicily prepared to send the Italian transports to the bottom. It is believed here that the landing of the Italian troops in Tripoli will bring the war to a conclusion as far as Turkey is concerned, and that peace will be declared very shortly.

The most serious cloud on the horizon is the report that the powers have been notified by the Porte that all Italians are to be expelled from the Ottoman empire within a specified time. The leaders of the young Turks are said to have warned the Sultan's government that if the Italians were not expelled there were grave fears that a massacre would be started.

WOULD SAVE BEATTIE FROM THE HANGMAN

Richmond, Va., Oct. 10.—Attorneys for Henry Clay Beattie, Jr., began preparing a petition for writ of error today to be presented to the supreme court of appeals when it meets Nov. 8 in an effort to save the prisoner from electrocution, November 24, for the murder of his young wife. The court may announce a refusal of the writ on November 16, the first decision day. If the petition is granted, however, it will mean a reprieve and the hearing probably will not be held until January.

Woodman Secretary Attempts Suicide

Cincinnati, Oct. 10.—George E. Budd, secretary of a local lodge of the Woodmen of the World, shot himself through the head at his home here today. Doctors say he cannot live. Budd disappeared the night of September 27 and returned home three days later declaring he did not know where he had been. His lodge accounts were investigated but it was declared they were in good shape.

DISFIGURED WITH

SCALES AND CRUSTS

Eczeema from Top of Head to Waist. Suffered Untold Agony and Pain. Doctors Said It Could Not Be Cured. Set of Cuticura Remedies Successful When All Else Had Failed.

"Some time ago I was taken with eczeema from the top of my head to my waist. It began with scales on my body. I suffered untold agony and burning, and could not sleep. I was greatly distressed with scales and crusts. My ears itched and itched and I could not get rid of them. I tried all kinds of remedies but to no avail. At last, I tried a set of the genuine Cuticura Remedies, which cured me. Cuticura Remedies cured me of eczeema when all else had failed, therefore I cannot praise them too highly.

"I suffered with eczeema about ten months, but am now entirely cured, and I believe Cuticura Remedies are the best skin cure there is. (Signed) Miss Marie J. Shaw, R. F. D. 1, Box 8, Danvers, N. H., Oct. 27, 1910.

"I suffered with eczeema about four years when boils began to break out on different parts of my body. I started with a meagre rash. My back was itched first, which it was very sore. I tried all kinds of remedies but to no avail. At last, I tried a set of the genuine Cuticura Remedies, which cured me. Cuticura Remedies cured me of eczeema when all else had failed, therefore I cannot praise them too highly.

Society

The Travelers' club met in weekly session in the parlors of the Baptist church in Granville on Monday afternoon from two to four o'clock. A great number of the members were present and the following is the program as taken from the calendar:

ST. LOUIS.
The Missouri Compromise, Miss Davies
God gave us angry men in every age.
Men with indignant souls at sight of
wrong.
Men whose whole being glows with
righteous rage.
Men who are strong for those who
need the strong.
—Sheldon.
The Lower River. Mrs. Rogers
Following both papers an interesting
discussion was held and current events
were read. The guests of the club
were Mrs. Tilley, Mrs. Franks, Mrs.
Humbin and Mrs. Gilmore.

Mrs. Paul Helm will entertain the
members of the Sesame club on Wed-
nesday afternoon at her home, 197
Columbia street.
The Newark Masonic Social Club
will dance at Assembly Hall this even-
ing. This is the first of the winter
series and Stevens orchestra will tur-
nish the dance program.

Sunday the Sigma Chi fraternity
of Granville charmingly entertained
at dinner the Misses Zollers, Ruth
Deardorff, Esther Carney and Dorothy

McCann and Dorothy Winchell of Day-
ton, O.
On Monday evening two very enjoy-
able banquets were given at the J. S.
Kuster estate in North Park place.
From 7:30 to 9 o'clock the members of
the Heisey ball team were served at
special tables and a delicious menu,
prepared by Mr. J. S. Kuster, Jr., was
served. Following the banquet a ses-
sion of talks was had. From 9 to 11
o'clock the C. M. A. banquet was held
and the tables were prettily arranged
and the appointments were delight-
ful. Fifteen were served at the Heisey
banquet and eighteen at the C. M. A.
dinner.

The Art Embroidery club met at
the home of Mrs. F. C. Parks on the
regular club day. The afternoon was
spent in a social way and needlework
whiled away the hours. A delicious
luncheon was served the guests. The
next meeting will be at the home of
Mrs. Gus Monahan on October 18.

Learn to Live.

ACATION is over, and Katharine has returned to her work feeling
fine. She is rested. She has had a good time. She is overflowing
with vitality and high spirits. Work goes easily. She feels as if
she could move mountains.

But next spring, Katharine will be all worn out. She won't have a
grain of energy. Work will be a drag. She will be taking tonics to spur
up an appetite. Life will seem hardly worth living.

And Katharine is no exception. Thousands of business girls have the
same experience. So also do thousands of business men. It likewise is
the experience of the busy housekeeper and mother. What is the cause of it?
What has happened in these six or eight months to drain this overflowing
vitality until it sinks almost to the zero point?

Many things cause it, but the real cause back of them all seems to
be that we do not know how to live. We know many things in this won-
derful age. But looking about us at our full hospitals, at the ever-increas-
ing number of doctors' signs, at apothecaries' shelves filled with boxes and
bottles, it does seem as if we do not know how to live.

If you stop to think of it, how did all the hundreds of diseases from
which we suffer come about? Undoubtedly through ignorance in some
form. If, as some claim, diseases come through the mind, it is lack of un-
derstanding that permits their mental entrance. The old Hindus claim
that perfection of knowledge will cure all ills. And so whether our troubles
are spiritual, mental or physical, ignorance seems to lie at the root of them.
We do not know how to live.

One of our great fields of ignorance in the art of right living is food.
Wrong eating is one of the chief causes of our physical ills. Again, some-
times we know, but fail to do. But whether it is ignorance or indifference,
the result is the same—disease fastens itself upon us. One must both
know and do.

The business man or woman usually starts digestive troubles by bol-
ting his breakfast. It seems a little matter, no harm seems done at first,
and the practice is continued. The ill effects are helped along by a hurried
or injudicious lunch. After a month or two of this, the one who has re-
turned from vacation feeling fine, begins to feel languid, tired. There is no
energy. The appetite begins to fail. Many things are blamed, principally
overwork; when very often the chief cause of the trouble is dietetic.

Certain laws of chemistry underlie the food question, and there is no
escaping the ill effects, as if there were no such laws. Yet the majority of us
go gaily on our way, as if these laws are broken. For instance, most of
us break one of these laws every morning in the eating of our oatmeal.
Oatmeal and most of the cereals served for breakfast are composed largely
of starch. The digestion of starch begins in the mouth. But starch is not
digested in the stomach. These cereals therefore should be thoroughly
chewed, so that the saliva may mix with them, and start the digestive op-
eration. But nearly every one swallows his oatmeal without chewing, and
it lies, a heavy, undigested mass in the stomach, until the poor, over-worked
stomach can get up energy to pass it on.

Chewing is necessary quite as much for the proper admixture of saliva
with food, as for breaking it up into small particles. When food is bolted
or swallowed without the proper mastication, it acts in many ways as a
poison. It must be remembered that the stomach, as some one has said,
has no teeth, and if food gets by the teeth without their having done their
proper work, trouble is surely going to ensue.

It seems a very simple thing to chew our food. And yet we simply
don't do it. We eat without chewing and then take a pill or a tonic to
help our digestion. We certainly do not know how to live.

Not only does food need to be chewed, but liquids need to be sipped.
Their ingredients need to be mixed with the saliva the same as more
solid food.

And not only does chewing and sipping properly start the work of
digestion, but it stimulates the sense of taste. This causes the gastric juice
to flow in the stomach, and thus the stomach is prepared to digest the food
when it reaches it.

So you see, there is a close connection among all these operations of
digestion. And when one is not performed properly, the rest is thrown
out of gear.

If one's time for eating is short, it is better to eat little and eat it
properly, than to bolt a lot hurriedly. Eating properly is one of the signs
posts on the road to good health, and those who want to retain the vitality
they have stored up this summer, should take heed of this little guide-book,
as they shoulder their burden of winter work.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases,
disorders and weaknesses peculiar to women. It is the
only preparation of its kind devised by a regularly gradu-
ated physician—an experienced and skilled specialist in
the diseases of women.

It is a safe medicine in any condition of the system.
THE ONE REMEDY which contains no alcohol
and no injurious habit-forming drugs and which
creates no craving for such stimulants.

THE ONE REMEDY so good that its makers
are not afraid to print its every ingredient on
each outside bottle-wrapper and attest to the
truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can
get it. Don't take a substitute of unknown composition for this medicine of
known composition. Is as good as the genuine and the druggist
who says something else is "just as good as Dr. Pierce's" is either mistaken
or is trying to deceive you for his own selfish benefit. Such a man is not to be
trusted. He is trifling with your most precious possession—your health—
may be your life itself. See that you get what you ask for.

GOOD NEWS.

Many Newark Readers Have Heard It
and Profited Thereby.

"Good news travels fast," and the
thousands of bad back sufferers in
Newark are glad to learn that prompt
relief is within their reach. Many a
lame, weak and aching back is bad
no more, thanks to Doan's Kidney
Pills. Our citizens are telling the
good news of their experience with
the Old Quaker Remedy. Here is an
example worth reading:

F. Lisey, Newark, O., says: "I was
afflicted with kidney complaint, and
my back was so sensitive that I was
in misery when I attempted to get up
after sitting. Sharp pains often darted
through me and other symptoms of
kidney complaint were in evidence.
This trouble resisted every treatment
until I used Doan's Kidney Pills.
They cured me permanently and I
have no hesitation in confirming all
I have previously said in their
praise."

TIGER CAN HUNT YOU AS YOU HUNT HIM.

Luck Helped This Man Because Tiger Died on Reaching Him.

"IT'S great sport to hunt a tiger,"
said a man who has traveled all
over the world to kill 'big game';
"but, believe me, it's no fun to have a
tiger hunt you."

"I found that out in India last year,
where I had gone to try the favorite
pastime of the English army officers,
pig sticking. I took a rifle to my sta-
tion as well as my spear in case I
should get a sight of any other animal
than a bear, and it was a mighty lucky
thing for me."

"After the army of native beaters
had been fine combing the jungles and
making outlandish noises for half an
hour there came a tremendous noise
in some bushes near me, and I got
ready with my spear. But a second
later I dropped it in astonishment, for
I craved a tremendous tiger."

"I had just time to get my rifle and
aim when he leaped at me. My bullet

WHEN THE TIGER BOUGHT REVENGE.

went through both his front legs, and
with a snarl of agony he slipped back
into the jungle.

"The sudden and evidently unex-
pected appearance of the tiger had
filled the native beaters with terror,
and it was with great difficulty that
they could be induced to go to the top
of the ravine and roll stones down into
the thicket to rout the tiger out."

"At last a big stone must have hit
him somewhere, for he came rushing
from the thicket and went crashing
and roaring away into the jungle on
the other side."

"The trail was easily sighted, for it
was a trail of blood. It had not led us
far when we saw the tiger standing
among a tangled mass of reeds and
twisted roots. I fired on sight. The
tiger staggered and fell, lying broad-
side to us, showing the full splendor
of his glistening skin."

"Suddenly without warning the great
tiger rose to his feet and dashed madly
toward us. My guide turned to the
left and broke into the jungle. I rushed
in another direction, following close
on the heels of the dying coolies. The
tiger followed me."

"In spite of his wounded condition
the tiger gained on me, and I imagined
I could feel his hot breath on my neck.
In my blind terror I stumbled and fell,
striking my head against the heels of
a coolie in front of me. That fall was
all that prevented the tiger from being
in at the death of me instead of my
being in at the death of the tiger."

"As I fell the tiger had gathered
himself for a leap. He leaped, pass-
ing over me like a shot as I lay pro-
strate in the weeds, and his great claws
buried themselves in the naked flesh
of the coolie's shoulders. His red jaws
closed on the poor devil's neck. The
coolie uttered one shriek, and tiger
and victim fell backward across me
where I lay, driving the breath out of
me. The next I knew the guide was
holding my head on his knee and a
cockle lay dead to my lips. Tiger and
coolie lay dead to my feet."

"But in reward for my nerve shake
I got the finest skin that I have ever
seen."

A Floor That Turns Over.

The floor in the Apollo theater in
Paris is reversible, one side being made
for dancing, the other being the usual
inclined floor equipped with the fold-
ing seats of a theater auditorium. The
floor is mounted on a horizontal axis
on which it revolves. It is built on a
framework of steel girders, has an
area of 2,500 square feet and weighs
100 tons. The axis, which is parallel
to the front of the stage, is in the
middle of the thickness of the floor,
but nearer to the seating surface than
to the dancing surface. The floor
swings through an excavation over
thirty feet in depth.—Cement Age.

English Scones. Rub thoroughly to-
gether one pound of flour, one table-
spoonful of sugar, one teaspoonful of
salt, one-quarter of a pound of butter
and two teaspoonfuls of baking pow-
der. Add a half cupful of dried cur-
rants or seedless raisins. Beat one egg,
add a half cupful of milk and stir into
the mixture, adding more milk as nec-
essary to make a soft dough. Turn
out on a well floured board, knead for
a moment then roll out a half inch
thick. Cut into rounds the size of a
dinner plate, lay on flat greased pans
and with a sharp knife dipped in flour
cut crosswise into quarters, being care-
ful not to go quite through to the pan.
Brush with milk in which a little sug-
ar has been dissolved and bake in a
quick oven. Pull the four sections
apart, break each piece partly open,
lay in a piece of butter, press together
and serve at once.

Cabbage au Gratin—Quarter a small
white cabbage, boil tender in pot
liquor taken from boiled ham, let it
become cold; cut rather coarsely; sea-
son with pepper, salt, a large spoonful
of butter, three of milk and beat
smooth with two raw eggs. Put into the
buttered dish, strew thickly with fine
bread crumbs, wet these with melted
butter; cover and bake forty-five min-
utes; uncover and brown.

HOW TO BUY BONDS

Bonds are attractive, but dis-
crimination should be exercised
whether you are buying Muni-
cipal, Corporation or Realty bonds
or stocks.

Government Bonds are repre-
sentative of strength but small
income, and money is worth more
than the return from Government
issues.

We are prepared to offer at
all times lists of attractive bonds
that have been passed upon by
recognized and capable authori-
ties.

We buy and sell Bonds,
whether Government, State,
County, Municipal or Corporation,
and we will make exchange of
securities at market values.

United States Steel Corpora-
tion Bonds have been heav-
ily liquidated; at present
prices they net nearly 5%.

The convertible Bond issues
of several of the railroads
as the American Telephone
and Telegraph Company, offer
most attractive means of se-
curing convertible rights to
stock without the speculative
risk. Bonds of undoubted
worth to be had to yield 6%.

Insects That Imitate Ostriches.
The habit of the ostrich of burying
its head and imagining that it has
eluded discovery is copied after a
fashion by certain insects, according
to Dr. G. Rodman in his lectures on
the subject of the stick insect, or bac-
illus rossii, which he has cultivated.
These insects, which are so called be-
cause of their resemblance to dry
sticks, have two fore legs which they
fold completely over their eyes when
disturbed and evidently think that in
so doing they themselves are lost to
view. The eggs of these insects, Dr.
Rodman says, take something over six
months to hatch. They are only one-
tenth of an inch in their longest di-
ameter, and by some miracle an in-
sect which at hatching is three-quar-
ters of an inch in length is packed
into them. The stick insects destroy
the workings of their number by eat-
ing their legs.—Westminster Gazette.

HEALTH HINT FOR TODAY.

Wetting the Wrists.
When children come in from
the playground hot and panting
remember the old rule and make
them wet their wrists and the
lobes of their ears. The effect
of this slight bath is wonderful,
and it is not attended with the
dangers that result from a
plunge while overheated into a
tub of cold water. Women while
sewing on hot afternoons will
find the constant wetting of the
wrists and ear lobes very re-
freshing. Hanging wet towels
about will cool a room, and a
basin filled with cracked ice and
salt will lower the temperature
most pleasantly.

TOOTHMAN HELD TO GRAND JURY

Howard Toothman, held by the local
police on a charge of horse steal-
ing, was given a hearing before Mayor
Ankele Tuesday afternoon and was
found guilty and was bound over to
await the action of the grand jury.
His bond is \$300. The testimony
showed that Toothman, in company
with John Arhey, attempted to sell a
rig belonging to Charles Whithead.
Arhey has not been apprehended.

lead, refusing to digest, or you belch
Gas and Eructate sour, undigested
food, or have a feeling of Dizziness,
Heartburn, Fullness, Nausea, Bad
taste in mouth and stomach headache
—this is Indigestion.

A full case of Pape's Diapensin costs
only 50 cents and will thoroughly cure
your out-of-order stomach, and leave
sufficient about the house in case some
one else in the family may suffer from
stomach trouble or Indigestion.

Ask your pharmacist to show you
the formula plainly printed on these
10-cent cases, then you will under-
stand why Dyspeptic trouble of all
kinds must go, and why Diapensin
always relieves sour, out-of-order
stomachs or Indigestion in five min-
utes. Diapensin is harmless and tastes
like candy, though each dose contains
power sufficient to digest and prepare
for assimilation into the blood all the
food you eat; besides, it makes you go
to the table with a healthy appetite;
but, what will please you most, is that
you will feel that your stomach and
intestines are clean and fresh, and you
will not need to resort to laxatives or
liver pills for Biliousness or Constipa-
tion.

This city will have many Diapensin
cranks, as some people will call them,
but you will be cranky about this
splendid stomach preparation, too, if
you ever try a little for Indigestion or
Gastritis or any other Stomach misery.
Get some Pape's Diapensin now.

of Stomach Trouble and Indigestion.

ATTY. GEN. HOGAN RENDERS OPINION ON LIQUOR SALES

Columbus, Oct. 10.—Evidence that a
single sale of intoxicating liquors was
made is not sufficient, in the opinion
of Attorney General T. S. Hogan, to
establish in court that the seller has
violated the Rose law or that he may
be held for the collection of the Alken
liquor tax, and he so ruled in response
to an inquiry from Dairy and Food
Commissioner Strode.

Under this ruling it will be impossi-
ble for Commissioner Strode's inspec-
tors to call at any place, and, upon se-
curing a single glass of beer or whis-
key, compel the man selling to them
of violation of the law, unless they
can adduce other evidence to show that
the traffic is being carried on regularly
or habitually.

The Rose law prohibits the sale of
liquor in countries which have voted
dry, while the Alken law levies a tax
against the business of "trafficking" in
liquor.

When the inspectors succeed in buy-
ing drinks from an establishment in
dry territory they prosecute for viola-
tion of both laws, and the opinion
handed down by Attorney General Ho-
gan will make it more difficult for
them to secure convictions, according
to the department.

GAS SHORTA CAUSES SHUTDOWN OF BOTTLE PLANT

Owing to a shortage of gas, several
departments of the American Bottle
company have been closed down until
the management can make arrange-
ments for a better supply of gas. The
bottle blowers were laid off Tuesday
morning and several machine crews
have been compelled to lay off. Offi-
cials of the company are expected in
the city tonight when arrangements
will be made providing for a steady
gas supply.

SOOTHING TO ITCHING SCALPS.

A dash of Beta Quinol on the
scalp, a gentle massage, and—Presto!
itchiness stops. The scalp has what
it craved—a tonic to nourish and in-
vigorize. Beta Quinol is unlike other
preparations for the scalp and hair.
It soothes, vivifies, tones and en-
erizes, delicate tissues, better enabling
them to perform their functions.
nourishes hair follicles, makes the
scalp soft and pliant, and encourages
a luxuriant growth of captivating
hair. Beta Quinol comes in one
ounce bottles highly concentrated.
Each bottle makes one pint of the
best hair tonic. Prepare your own hair
tonic at little cost by mixing half
each of alcohol and water, then pour
in one ounce of Beta Quinol, or you
can add the Beta Quinol to one pint
of bay rum.

THE DREAMER.

Beneath the big tree's boughs he sat, and dreamed of some fair
place, where never heartless plutocrat can grind the poor man's face;
his vision placed before his eyes a region fair and good, and while
his spirit roamed the skies, his wife was splitting wood. The dreamer
gets some fine bouquets from poets and their kind, who picture him
as having up treasures in his mind. But when it comes to old brass
tacks, I like that pilgrim best who and gives his wife a rest. I like the
goes to bed, who hushes in the mart, to make the price of prunes and
bread. That man is hardly worth away, and backs on downy beds of
and if he lets the hausfrau sweat and if he lets the hausfrau sweat
that some one near should give the hand, on a dream, he is so sunk
that are mighty dear at one kopeck the bunch.

STOPS HEAD NOISES, CURES CATARRH AND PREVENTS DEAFNESS

A Simple, Harmless Treatment That
Clears the Head in a Few
Minutes.

If you are troubled with Catarrh,
Catarrhal Deafness, Catarrhal Head-
ache, head noises, dullness and that
stuffed-up feeling, with frequent
sneezing, sneezing spells, Sore
Throat, Asthma, Hay Fever or
kindred affections, certainly you
should try the Nostriola Treatment.

Nostriola is a simple, harmless,
antiseptic, cleansing healing balm,
quickly reaches and heals the sore in-
flamed mucous membranes, clears the
head, opens the air passages, and in
cases of Catarrhal Deafness, a few
applications of this treatment fre-
quently restores the senses of smell
and hearing.

The nostrils and air passages are
the breeding places for the catarrhal
germ. When the membranes become
sore and inflamed you catch cold
easily, and each new cold increases
the inflammation until you have Cat-
arrh, Hay Fever and kindred disor-
ders. The Nostriola Treatment heals
and strengthens the linings of the air
passages so they are able to resist,
and throw off colds.

Nostriola is put up in convenient
collapsible tubes—25c for sixty days'
treatment. Buy a tube of your drug-
gist today, and you'll wish you had
tried it sooner, for certainly Nostriola
is worth its weight in gold to all
who use it.

AUDITOR RILEY MAKES STATEMENT TO THE PUBLIC

Claims Taxes Will Be Only One-Third
Of What They Were a Year
Ago.

An Advocate reporter Tuesday
asked Auditor C. L. Riley what pros-
pect there was for the relief of the
tax payers of Licking County and
whether there would be any appreci-
able reduction in the taxes.

In answer to the question, Mr. Ri-
ley made the following statement:
"I am glad to state that monies
and credits have been and are still
being reported for taxation by the
people of the city and county in very
large amounts. I believe that the
people are beginning to understand
the present tax laws and are realiz-
ing for the first time the aim of
the laws is equal rights in the matter
of taxation. I believe that when they
fully understand it there will be but
very few people who will be unpari-
tarian enough to try to defraud the
state, county, school and the town-
ships of the small share of their
property that these institutions need
for their maintenance. Since the
personal assessors reported last
spring the Board of Review for the
city and the county auditor have
listed very much more money and
credits for taxation than did the as-
sessors, all of them, during their can-
vass last spring. This does not mean
that the assessors failed to do their
duty, but simply that the people are
just beginning to understand the cir-
cumstances surrounding the same.

"I desire to remind the public
again that I am still ready to help
you correct your returns, if you have
through any misunderstanding on
your part, failed to report all of your
building and loan stock, monies or
credits of any kind. I desire to call
your attention to the fact that all the
real estate of the county, all the va-
rious corporations, including our
manufactories and gas companies,
are placed on the tax duplicate at
their true value in money. To con-
vince you of the truth of this state-
ment I call your attention to the fact
that the total tax duplicate of last
year was but little more than
thirty million dollars, and this year
it will reach ninety million dollars.
If not quite that sum. The gas com-
panies of the county have been placed
on the tax duplicate by the State
Commission and the Board of Equal-
ization for more than ten times what
they were last year. Now I certainly
think you will see that it will be no
longer an injustice to you as it has in
years past, if you will report all of
your intangible holdings for tax-
ation. I can assure you positively
that the tax rate will be but little
more than one-third what it was a
year ago. All persons reporting their
own property to me for taxation may
do so on the same terms as those
listing to the personal assessors last
spring. No penalties will be placed
on any persons except those who fail
to report their own property. Again
I appeal to your patriotism to carry
out the principle of equal privileges,
equal rights and equal burdens of
taxation to all.

**Beaware of Ointments for Catarrh That

as mercury will surely destroy the

"Losing the Drop."
"When a man whips out a gun and get the drop on you there's nothing else to do but throw up your hands and let him have whatever he wants." "That's where you fool yourself," said the man from the southwest. "If a man has the nerve he can face a gun and get away with it—sometimes. I remember seeing in a border saloon an Englishman pull a gun on a Mexican whom he had caught cheating in a game of cards." "You give me back the money you've won from me or I'll blow your head off!" "You will?" said the Mexican, looking calmly into the muzzle of the Englishman's revolver. "Well, you won't do it just now; that gun's not loaded." "What's that?" exclaimed the Englishman, turning the revolver toward himself to look into the chambers. And on the instant the Mexican drew a knife and planted it to the hilt in the Englishman's stomach."—New York Times.

GRANVILLE MAN ASSISTED GIDEONS AT DAYTON MEETING

One of the most successful demonstrations ever held in Ohio was held at the Y. M. C. A. hall in Dayton last Sunday under the auspices of the Gideons, when between 700 and 800 Bibles were placed in the hotels of that city. One of the leading merchants had donated the use of his show windows and an expert window dresser carefully arranged the Bibles in a very conspicuous place where they remained all week and the thousands who daily passed by would stop in wonderment and take notice. They were then re-

moved to the Y. M. C. A. hall and placed upon the platform and artistically arranged in a large pyramid by the same decorator.

At 3 p. m. a large concourse of people assembled and listened to some live speakers, M. P. Ashbrook, a member of the National Cabinet of Gideons, the state president, A. P. Lomberry of Cincinnati, John Emerson, state secretary and treasurer of Toledo, and A. G. Allison, president of Dayton Camp, who had done so much to make this event a success.

One of the leading pastors of Dayton told of the great work of the Gideons and of their tremendous power for good and the far reaching influence of these Bibles which were here dedicated to their life's mission and then said that the Gideons needed about fifty dollars to offset the money they had advanced for the Bibles, and an offering was then taken which showed that an even hundred dollars had been collected.

Previous arrangements had been made the evening before when the different churches of the city had each sent a representative to co-operate with the Gideons and there pledged to see that from ten to twenty-five from their church would be on hand and carry Bibles. The Bibles were then handed out two to each person, making up the amount needed for each hotel, who, headed by his leader carrying a banner upon which were the names of the hotel and number thereof, these various squads passed

M. P. ASHBROOK, Member of the National Cabinet of Gideons.

on to the street and formed a line of march headed by the four speakers, led by the Dayton band, forming a phalanx extending over three blocks in length, when the command of march was given. The fine body of men, among whom were the pastors of the city churches and prominent business men, stepped forward, four abreast, to the band's sweet music, "Onward, Christian Soldiers," presented a picture that eternity alone can measure its influence.

When the Bibles had all been placed, all marched to the front of the Y. M. C. A. hall and sang "Onward, Christian Soldiers," then disbanding, saying "this was the greatest event ever witnessed."

Much credit is due to Mr. Ashbrook, who had also placed over 500 Bibles in Licking county, which was the first county in America to be Bibles, and whose example is being taken up all over the country.

DOUSTER SUIT IS DISMISSED

Columbus, Oct. 10.—The supreme court today dismissed the ouster suit against the Hocking Valley railroad begun in 1903 to prevent the Hocking from controlling the T. and O. C. and K. and M. railroads and the Sunday Creek Coal company. The circuit court held that the Hocking could not hold that control and that the road was not now holding it.

TO CELEBRATE DISCOVERY DAY THURSDAY EVE.

Knights of Columbus Prepare to Entertain 600 at Banquet—Attorney General Hogan to Be Present.

To commemorate Discovery Day the Knights of Columbus of this city will give the second annual Discovery Day Banquet on October 12 at the armory. At the first banquet given last year plates for nearly five hundred people were served, and the affair was a brilliant success. This year arrangements are being made to seat six hundred and a delicious menu has been prepared which will be served at 7:30 o'clock. During the dinner Stevens' Orchestra will furnish music and a short song recital will be given. Several prominent out of town speakers have been secured among whom is Attorney General Hogan of Columbus and among the local speakers are Charles W. Montgomery and Father J. M. Ryan. Discovery Day has been named as a legal holiday and in commemoration of the order bears the name of Columbus, are lending every effort to make this year's celebration equally successful to the first banquet.

RELIEF FOR THE LAUNDRESS.

Under old-fashioned methods laundry work was a severe burden. Rub, rub, rub and scrub, scrub, scrub on a wash-board till the back ached, the limbs were weary and the hands became red and rough.

There is no need of going through this ordeal today, because Hewitt's Easy Task soap lightens this work fully one-half and makes it much less disagreeable. Just buy two cakes for ten cents and if the first is not satisfactory return the other and get your full money back.

ATHLETICS ARE BEST HITTERS AND FIELDERS

But Giants Show Better Form on the Bases—Estimated Receipts For Series is \$300,000.

New York, Oct. 10.—An interesting comparison of the relative strength of the New York Nationals and the Philadelphia Americans, who will begin their battle for the world's championship next Saturday is made by the unofficial records of the teams for the present season. In batting the Giants have a team average of .272 for 146 games, while the Athletics show .294 for 150 games. In fielding the Giants averaged .961 and the Athletics .962. McGraw's men have stolen 438 bases, while the Athletics have stolen 228 bases. The Athletics have made 856 runs and the Giants 720. In safe hits the figures give the Athletics 1,58 and the Giants 1,298.

A rough estimate of the gross receipts when the Giants and Athletics play the first world's series game at the Polo Grounds in New York Saturday, provided weather conditions are favorable, is as follows: Four hundred boxes at \$25 each, \$10,000; 16,000 lower grand stand seats at \$2 each, \$32,000; 10,000 upper grand stand seats at \$3 each, \$30,000; 5,000 grand stand admissions at \$2 each, \$10,000; 15,000 open grand stand seats at \$1.15, \$15,000; gross receipts, \$97,000. Of this the commission's ten per cent will be \$9,700; club owners' 30 per cent, \$29,100; players' share, 60 per cent, \$58,200. A guess places the gross receipts for the series provided seven games are played at more than \$300,000.

Despite the repeated announcements that only applications forwarded by mail would be given attention, hundreds of enthusiasts, bubbling over with the desire to see one or more games of the series for the world's championship, besieged the offices of the New York National League Club today. A six-foot spe-

THE HERPICIDE GIRL KNOWS

While shopping the most annoying thing for me is to have someone try to sell me something "just as good" when I ask for Newbro's Herpicide. To be sure there are not many druggists who do this, but what few there are should know that such a policy will destroy the customer's confidence. When they try it on me I never wait for the story, simply hunt a store where they will sell me what I want.

It is absurd for anyone to say that a preparation is as good as Herpicide. I don't think they believe it themselves. Every druggist knows that there is but one genuine, original dandruff germ destroyer and that is Newbro's Herpicide.

It keeps the head free from dandruff, prevents the hair from coming out and stops itching of the scalp. Herpicide is really a wonderful remedy which does just what you want and expect it to do.

One dollar size bottles are guaranteed. Sold by all druggists. Applications at good barber shops.

cial policeman who stood guard, however, turned everybody back.

Inside the offices a heavy clerical force kept at work sorting the mail orders which kept pouring in. Even after a very busy Sunday, Secretary Gray was hardly able to see daylight through the great piles of applications. And there is another day yet for the accumulation of the increase. "The greatest rush on record for baseball tickets" is what those familiar with the history of world's series advance sales call it.

Many schemes to secure special attention to their requests for pastebards were tried by various applicants. Messenger boys by the score came to the offices with letters inclosing applications and money, but they were all turned away. One energetic individual inclosed his application in a huge packing box marked "valuable" and sent it to the offices of the club by express. The letter was taken out of the box and tossed into a pile of thousands waiting to be sorted by the small army hired to do that work.

It was a day of rest for the Giants who will open their final league series of the year with a game in Brooklyn.

Circleville, O., Oct. 10.—Paul Griffith and Edward Lutz, both 14 years old, while playing with a builders' elevator at the new school house in Amanda, O., Sunday, received injuries which caused the death of one and has placed the other in a dying condition. While the boys were playing the elevator wheel fell, striking both lads squarely on their heads. Griffith's skull was crushed and he died yesterday. Lutz' skull is fractured and he is dying.

ONE MILLION DOLLARS FOR A GOOD STOMACH

This Offer Should be a Warning to Every Man and Woman.

The newspapers and medical journals recently have had much to say relative to a famous millionaire's offer of a million dollars for a new stomach.

This great multi-millionaire was too busy to worry about the condition of his stomach. He allowed his dyspepsia to run from bad to worse until in the end it became incurable.

His misfortune serves as a warning to others. Every one who suffers with dyspepsia for a few years will give everything he owns for a new stomach. Dyspepsia is commonly caused by an abnormal state of the gastric juices, or by lack of tone in the walls of the stomach. The result is that the stomach loses its power to digest food.

We are now able to supply certain missing elements—to help to restore to the gastric juices their digestive power, and to aid in making the stomach strong and well.

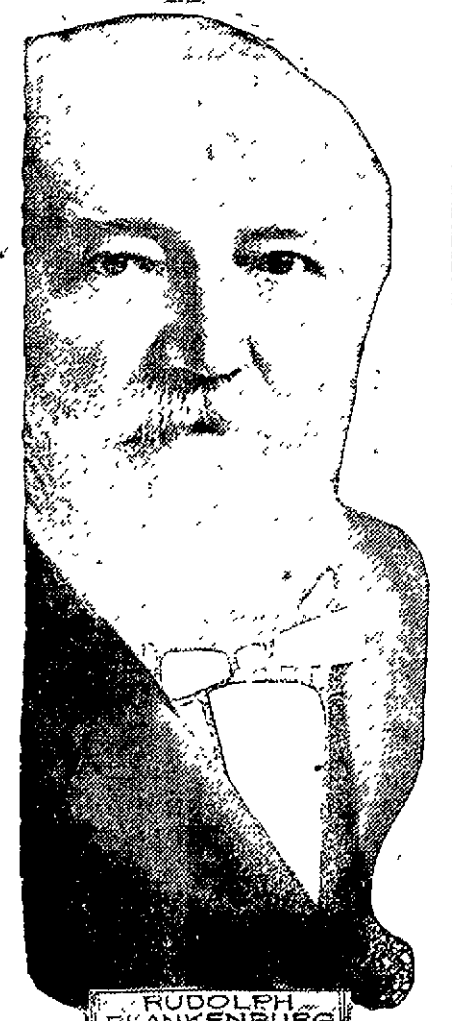

We know that Rexall Dyspepsia Tablets are a most dependable remedy for disordered stomachs, indigestion, and dyspepsia.

We want you to try them and will return your money if you are not more than satisfied with the result.

Three sizes, 25c, 50c, and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store, Frank D. Hall, 10 North Side Square.

WAYWARD GIRL FOUND IN NEWARK ELUDES SISTER

Columbus, Oct. 10.—After wandering about the city streets for four hours and nearly driving to distraction her older sister, who was searching for her, 18-year-old Theresa Johnson of Green-camp was found at 7 o'clock last evening, in Maple street, by Patrolmen Walker and Davis.

The police were called into the case when the girl escaped from the side of her sister, Miss Inez Johnson, while they were entering a Hocking Valley train for Marion yesterday afternoon.

Endowed with a roving disposition, she had left her parental home in Marion County some time ago, and when found by her family was in Newark. From there her sister brought her as far as this city, when she escaped a second escape.

Theresa Johnson was ordered before Mayor Ancker yesterday morning, because her sister found her entertaining a man in her room in the First National Bank building. The Mayor ordered her to return to her home at Greencamp, Marion county and the two sisters left Newark presumably to go to that village.

A Refreshing Drink For Fever Patients

To half a glass of any good syrup left from canned fruit—raspberry or strawberry—is especially good—add a tablespoonful of Dutty's pure malt whiskey and a few drops of lemon juice. Stir and pour over ice cubes. This may be made more nourishing by adding the yolk of a fresh egg and shaking the whole well. This drink is especially recommended by Dr. Thomas Lewis of Atlanta, Ga., who says: "It is unequalled for fever patients."

Daddy's Bedtime Story

The Man Who Heard the Golden Sirens Singing

"Do you believe in mermaids, daddy?" asked Evelyn. "Arabella Jones says there are lots of them at the seashore, but we never saw any."

"No, I can't say that I ever saw a mermaid. I don't just know any one that did, but I've heard a good deal about them. They are a sort of sea fairies, with long golden hair, which they comb with lovely golden combs. It is said that a queer thing about the mermaids is that, instead of having two little white feet to walk about on, they are, below the waist, nothing but fish. Mermaids live down in the bottom of the sea in palaces of coral and shells. They sing beautifully, so the story goes, and the sirens, who were a very famous family of mermaids, made a great deal of trouble for seamen, according to the old Greek poet Homer, who tells how his hero, Ulysses, managed to pass their famous island in safety and hear them sing."

"Ulysses had been off fighting in a war which kept him away from home for ten years, and after the war was over he took ship and began to sail back. So many wonderful things happened to him that the story of his voyage is one of the most interesting ever told. Ulysses had heard of the sirens and their beautiful music. He wished much to hear them sing. But no one ever had listened to the sirens and lived. Their songs were so bewitching that whoever heard them could not help jumping into the sea and trying to swim toward their island. Around their island the ocean was so wild that all were either drowned or eaten by the fierce monsters that swarmed in the sea."

"Ulysses was clever. He knew it would be a fine thing to be able to tell folks he had really heard the sirens sing. So when his ship came near the place where he had been told the sirens lived he asked his companions to fill their ears with wax and tie him to the mast."

"Remember," said Ulysses, "no matter what I may say or do, you are not to cut my ropes."

"The sirens were no doubt angry that no one paid them the usual compliment of drowning, for when they sang Ulysses did wildly beg his men to let him loose, but his faithful friends and seamen would not cut the ropes until safely beyond the mermaids' island. Ulysses loved to tell his friends in after years of the matchless music of the sirens, which he alone of all men living had been able to hear in safety."

"But, after all, I wouldn't put too much faith in stories of sirens or mermaids, for nowadays, at any rate, I'm pretty sure we don't have anything of that sort."

Sparks and the Ode.

Every boy who has struck flints together to make sparks knows the typical odor that arises from the clash. He also knows that the whiter the flints the more smell they emit. This phenomenon has been observed for centuries, but scientific men have been at a loss to account for it. Many explanations have been given, but experiment has proved all of these to be erroneous. Recently, however, two Italian scientists, the brothers Piccardi, demonstrated that the smell of spark emitting flints is due solely to the minute quantities of organic matter that are upon the stone and that are burned by the sparks. This organic matter need be in only the most minute quantity, such as may be left by water in which lichens, weeds or water plants have decomposed, for the olfactory nerves are so exquisitely sensitive that they can detect the burning of almost infinitesimal bits of matter. The delicacy of these nerves is proved by the fact that even after the pebbles have been washed in lye the smell of burning can still be detected. But if the pebbles be heated in fire and then struck together at points that the hands have not touched there is absolutely no odor at all.—New York World.

NUTTING SEASON NEAR GRANVILLE VERY PROLIFIC

Chestnuts, Hickory Nuts and Walnuts Being Brought into the Markets—Debate at Cleveland Hall.

Granville, Oct. 10.—The nutting season is fast passing and Granvillians who have been enjoying the profitable pastime say that the crop this year is larger than it has been for many years. Chestnuts have been on the market now for several weeks, and hickory nuts are also being seen in the markets. The recent cold nights have loosened the nuts and the hard rains knocked them from the trees where they were gathered in large quantities. Although many have been picked up there are still large quantities in the woods and nutting will be good for a couple of weeks yet. Time was when almost anyone was welcome to go into the woods and gather all the nuts they desired, but with the vanishing of the big woods these conditions have changed somewhat. Nowadays a nut tree is a valuable asset to a farmer and the most of them gather the nuts and sell them at a good price.

The annual debate tryout will be held on Tuesday evening, October 21, in Cleveland hall. Contestants will prepare five minute arguments upon the affirmative side of the question: Resolved, that all elective administrative officials in Ohio should be subject to the recall. Two teams, composed each of three regular men and one alternate, will be picked at this time. The debating prospects at Denison look brighter this year than ever before.

Bulletins to the students on "How to take care of their health," are to be issued at regular intervals this year in some of the educational institutions of the country. Why not adopt a similar plan in Denison?

In view of the jolly Hallowe'en season that is now near at hand, a few hints here would not be amiss for the young folks who intend to celebrate. And there are always many in Granville, especially the college girls, who look forward to this event with much anticipated pleasure. A great deal of fun may be got out of a Hallowe'en party if such an entertainment is properly managed. Everything should be as old fashioned, even to the dishes in which the refreshments are served as possible, because, you know Hallowe'en is an old fashioned custom and festival. Deal tables and pewter mugs are admirable for the purpose and the refreshments should be doughnuts—not the bought kind, but the sort mother only knows how to make—rosy cheeked apples, chestnuts, hazelnuts, molasses cake and perhaps marshmallows to toast before the fire. The open fire is the best, and cider is the most suitable drink.

Mr. and Mrs. Henry Morris and daughter, Miss Clarice of Ottumwa, Iowa, who have been visiting old scenes and old friends in and around Granville for the past two weeks, left for their home Monday evening. Mr. Morris formerly resided in this vicinity, but left here some twenty years ago for Iowa, and this is the first time he has been back since he left.

Mr. Maurice Jenkins quietly celebrated the twenty-fifth anniversary of his birth at his home north of Granville on Monday. He was the happy recipient of a number of useful presents from friends which he appreciated. All join in wishing Mr. Jenkins many other enjoyable anniversaries.

WILL MANAGE CANDIDACY OF COL. POPE BROWN

(Atlanta Journal.)
Mr. Volney Williams of Waycross, Georgia, editor of the Waycross Journal, has been placed in charge of ex-Governor Brown's gubernatorial campaign. Mr. Williams is one of the liveliest wires in Georgia Journalism and has wide experience in political affairs. Moreover, he is a high-class publicity man, and publicity in a gubernatorial campaign counts.

Mr. Williams is an influential factor in the politics of south Georgia, more especially Ware county, where he has lived for many years. He has been a consistent supporter of Gov. Hoke Smith, and in all of his campaigns for the governorship he has rendered invaluable assistance. His paper, the Waycross Journal, is one of the most influential in the state, and his association with Col. Pope Brown's campaign means, of course, that the Waycross Journal will give him its enthusiastic support.

Col. Pope Brown's manager, Mr. Williams, states that he will open headquarters during the later part of this week. The rooms at the Aragon hotel will be maintained for the present, but the regular campaign headquarters will be moved further downtown, and may be located in the Kimball House.

"We start the ball to rolling in earnest early next week," declared Mr. Williams, just before his departure for Waycross. "I will return to Atlanta Wednesday or Thursday, when all the details will be completed, and a vigorous campaign undertaken next week."

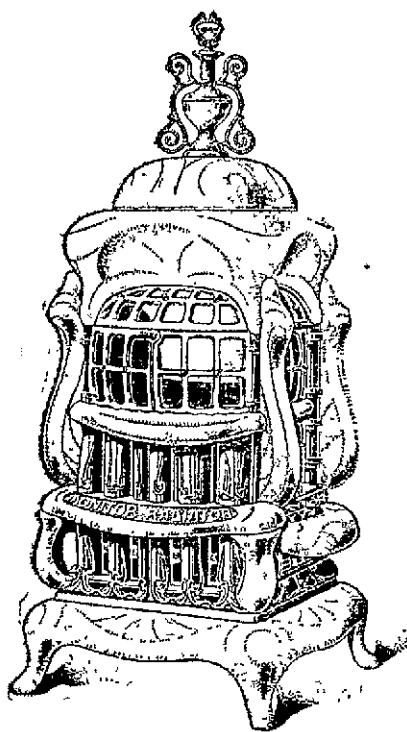

The Mr. Williams referred to above joined a party of four Newark men on a vacation trip to Mackinac Island the later part of the past summer. He is a congenial and progressive young man, one of those types of young southerners who are fast forging their way to the front and obtaining recognition for their more advanced theories regarding the management of

QUEEN OF THE KITCHEN.

Whoever presides in that most important section of the realm of home is chiefly responsible for the love, happiness and health of its community. Cleanliness is its most important obligation, clean, shining dishes, glass and silverware, serving dainty viands on snowy linen, give a refreshment which stimulates a wholesome appetite, and causes that blessing—good health.

Nothing is so effective in producing these results as pure, white, New's Easy Wash Soap, which cleanses with half the labor and same cost as the many cheap, strong soaps on the market. Then, too it costs but five cents.

DAVID STIFFIN ARRESTED ON A SERIOUS CHARGE

David Stiffin of Monroe street was arrested at 3.45 o'clock Tuesday morning at his home by Captain Swank and a squad of patrolmen and is held at the city prison to await the arrival of Sydney officers. He is wanted there on a charge of burglary and horse stealing.

When arrested, Stiffin was fully dressed and was apparently ready to make a getaway, but the squad of officers was large enough to guard against his possible dash for liberty. When his room was searched, the officers found a revolver and flashlight, a few skeleton keys, a key made from a spoon and a huge butcher knife with a keen edge. A charge of having burglar tools in his possession will be added against him in the local courts and when his case is disposed of at Sidney he will be returned to Newark to await trial on that charge.

Stiffin is said to be one of the men who escaped from the city prison in Columbus several weeks ago.

If you find an unguarded knave, kick him and run.

SNEAK THIEF COPS ROLL OF TEA MANAGER

Clarence Peeling of 156 Elmwood avenue reported to the police Tuesday morning that burglars entered his home Monday night and stole a large sum of money. Mr. Peeling stated that the thief entered the residence while he was absent from the house for a few moments. His wife was in the house but heard no one enter, so quietly did the thief work. The money was concealed under the pillow of a bed. Mr. Peeling, who is local manager for a tea company, stated that the money stolen was part of the firm's funds. The police have no clue as to the identity of the thief.

SITES HYDRAULIC SPRAYER INDORSED BY HEALTH OFFICER

Health Officer Dr. W. H. Knauss recently ordered that the Meeks residence on Park avenue, previous to raising the quarantine, be disinfected with a strong solution of "Creosol" Liquor, and that the dairy house and residence be fumigated with formaldehyde gas.

The work was done Tuesday by Sanitary Policeman Dan W. Hayes, the milk house, its utensils, the yard and cellars of the residence being thoroughly saturated with the chemical disinfectant which was sprayed by means of the Sites Hydraulic Sprayer, a recently patented invention of our townsman, Mr. Fred Sites.

The device works on the water-works line and the chemicals are delivered into the stream of water in correct and exact proportions for disinfecting work. The operation of the apparatus was attended with no more labor than that of sprinkling with the hose. But it is obvious that by this method, the "Creosol" is driven by the force of the water into every crack and crevice and that there is no place where germs can lurk that is not reached by the combined driving stream of chemical and water, where used.

Sanitary Officer Hayes was assisted in the work by Mr. Sites, who demonstrated to Dr. Knauss the complete efficacy of the apparatus. Dr. Knauss was highly pleased with the work of the new device and endorses its use for the ease of handling and the thoroughness of the disinfecting, saying to Mr. Sites, "that with the ease such work is done compared with the old way, and with the almost universal necessity for disinfecting, both for preventing disease and halting its ravages, there is no longer an excuse for not keeping all premises and utensils in a thoroughly sanitary condition."

"Those persons whose avocations require extra precautions as regards infection from dangerous bacteria should at once look into the merits of Mr. Sites' device which he so successfully demonstrated today."

"Any house or other establishment which is equipped with water pressure can use this device, both for disinfecting work and for the spraying of trees and conservatory work; it is invaluable for these purposes and it has my unqualified endorsement."

A MOTHER'S DUTY

It is the duty of every expectant mother to prepare her system for the coming of her little one; to avoid as far as possible the suffering of such occasions, and endeavor to pass through the crisis with her health and strength unimpaired. This she may do through the use of Mother's Friend, a remedy that has been so long in use, and accomplished so much good, that it is in no sense an experiment, but a preparation which always produces the best results. It is for external application and so penetrating in its nature as to thoroughly lubricate every muscle, nerve and tendon involved during the period before baby comes. It aids nature by expanding the skin and tissues, relieves tenderness and soreness, and perfectly prepares the system for natural and safe motherhood. Mother's Friend has been used and endorsed by thousands of mothers, and its use will prove a comfort and a benefit to any woman in need of such a remedy.

AMUSEMENTS

Last Night's Play.
"Quincy Adams Sawyer" both in book and play has for some time been a favorite with theatre goers and on Monday evening was presented at the Auditorium Theatre. The production, however, was but meagerly satisfactory as the company was hardly a capable one.

There were no particular spots made bright by brilliant acting neither was any one of the cast noticeably below the others in efforts. It might be that the small audience did not tend to create interest in the work, but it is certain that the play was given with indifference.

Tonight's offering at the theatre will be Montgomery and Stone in "The Old Town."

What the Press Agent Says

Montgomery and Stone.
The first engagement here of Montgomery and Stone in "The Old Town" at the Auditorium will instill interest even the season has just begun. A sly play is of such amusing features. The trials and mishaps of Fred Stone as Henry Clay Baxter, a cliffed country boy, and David Montgomery as his manager carry the audience along at a rapid rate through the two acts in which they manage to slide into all kinds of trouble, which only their wits save them from, when they find themselves at close quarters affecting all manner of disguises and finally triumph in the end and secure the girls of their choice.

The company remains about the same as when seen on Broadway with the exception of Clara Palmer, who will be seen as Ernestine Bilwether, an ambitious wife. Flossie Hope remains as the Swedish maid and Charles Dox as the Honorable Mike Buwether. Others in the cast are Helen Falconer, Edna Bates, W. J. McCarthy and Howard Russell. "The Old Town" Pony Ballet which won much success are still a feature. The production is one of Charles Dillingham's best and is staged with that infallible taste which characterizes all his endeavors.

The engagement is for one night, Tuesday, Oct. 10th.

The sale of seats is now open.

"Thy Neighbor's Wife."
The suburbanite who has a small home in the country with a small grass plot for a lawn and neglects the lawn mower for a comfortable lounge, will have a strong fellow feeling for Frederick Tilden's sparkling impersonation of the careless, neglectful husband in Daniel Frohman's production "Thy Neighbor's Wife." From his point of view, he cannot for the life of him see how his dutiful, home-loving wife can always find so much to do about the house. From his long experience in Charles Frohman's Empire Theatre stock company, Mr. Tilden has an ease of deportment on the stage that stands him in good stead in his portrayal of the indifferent and lazy, but not entirely unlovable Mr. Milner. The company is headed by Arthur Byron and will be seen in this comedy at the Auditorium theatre, Wednesday, October 11. One night

"Rock of Ages."
Is enough attention given the white slave traffic dangers by the government officers? Many believe in the negative as an answer to the question. Edward E. Rose, author of "The Rosary," believed that a play dealing with the question, disclosing all the corruptions, and the great amount of vice to be developed through no hindering power of the men higher up, was wanted on the stage. This play will be seen at the Auditorium on Thursday, October 12. With a cast consisting of Miss Jessie Arnold, Miss Lula Bishop, Miss Alma Russell, Miss Alice I. Cannon, Miss Crane, Fred Pittan, Jack Lewis and Albert Hyde. Rowland and Clifford have given "Rock of Ages" an excellent mounting.

"The Bohemian Girl."
An instantaneous success has been achieved by the Aborn Opera Company in its production of Balfe's "The Bohemian Girl." The revival is said to be a most magnificent one, the company numbering one hundred people, twenty mounted cavalry men, troupe of Tzifant Whirlwinds which are utilized in the fair scene, also numerous animals including trained bears, monkeys, geese, etc.

The production in its entirety will be seen in this city in the near future. On its way to the West in all the important cities of which it is to be presented. "The Bohemian Girl" at the Auditorium Theatre soon.

The Orpheum.
It was a large and well pleased audience that greeted the opening performance of the bill for the first three days at the Arcade theatre. Irma Orshanay and her trained cockatoos made a pronounced hit. Every minute the pretty little birds were introducing some novel surprise. They waltz and march with a precision and dignity that wins further great favor; they fight duels and fall over apparently dead with outstretched limbs and glassy eyes. One of their remarkable feats was the shipwreck. In this we see them pull in their anchor and set sail when an approaching storm warns them to throw their cargo overboard. The ship is wrecked and they hustle to the life boat and row away to safety. Every one was greatly pleased with the little fellows, but especially were they favored by children and many little one in the city should see them.

The comedy Imperial Trio is the hit of the bill. From this act we get the real life of the performer behind the curtain. They give a dressing room scene which is very interesting. In this we see them hustle in, late as usual, get their make-up on and make all preparations for their act; we see their troubles and pleasures, and while all this is taking place they

give some very popular song numbers which were greatly applauded. When the curtain falls on the dressing room scene and they come out to give their act we get an excellent singing act. The three boys have excellent voices and their audience seemed unwilling to let them go after repeated encores.

Frances Gerard, comedienne, has something new to offer you. She is quite a pretty miss and just as dainty as can be. She renders some good singing, but the best part of her work comes in her dancing. She is an excellent dancer, just as graceful as you find them, but she really surprises everyone with her hand spring and somersault which she introduces.

"Dog" scored a big hit with their original skit. It is just full of funny situations, and the pet dog "Trouble" causes many side-splitting mix-ups. The whole show is a good one and hard to beat in any vaudeville house. The Orpheumscope has a feature film

"LOVE'S YOUNG DREAM."

Married life is a veiled secret to those who first enter into this sacred condition. Courtship is a dream of bliss, but when the realities of marriage come and an increasing household is recorded by the years, economies of time, labor and money become necessary.

The cheerful, smiling bride should not become a drudge and she need not. Cleaning up of laundry work, dishes, woodwork, kitchen utensils and all the other necessary forms of washing can be made easy with Hewitt's Easy Task soap, which costs no more than the cheap kind—five cents for a liberal cake—pure white.

CHAMPIONS EVENLY MATCHED FOR GREAT WORLD'S SERIES

Burden of the Games Rests Upon Four Pitchers—Both Clubs Fortunate in Having Aggressive Managers—Indications Point to Record Attendance.

The 1911 baseball season is now almost a matter of history. The race in the American League closed with Sunday's games, and beyond a few struggling contests, that in the National is over, although the official closing is not until next Friday. The pennants in both organizations have been determined for some little time, and with that known, the remaining games have small interest. More than perhaps any other season will this year's race be notable, not so much, perhaps, for its surprises as for the many disappointments.

WOULD THAT EVERY FAMILY KNEW ITS VALUE

The Wish of the Ursuline Sisters, Waterville, Me., in Indorsing Father John's Medicine for the Cure of Consumption.

"We, the undersigned, cheerfully recommend and indorse the use of Father John's Medicine as a sure and immediate relief for all colds, throat and bronchial trouble, having used it with success for one of the members of our institution who was threatened with consumption of the throat. Hearing of the many cures by Father John's Medicine, we made a trial and are glad to state that after taking three bottles, a decided change took place, the patient having recovered

come disheartened, or become careless, thinking that when the fingers rounded to, the club would be able to recover the ground lost. At other times a streak of ill-luck seemed to strike the club and everything broke badly. But it is all over now and, though they may serve the purpose of excusing this or that team from failure to win the pennant, time has charitably wiped them from the memory of baseball readers, except the followers of clubs hit the hardest. That condition has played an important part in the disposition of the pennants this year has been clearly demonstrated, and though it is generally conceded that the best team won in the American League, it will be always an open question whether that applies to the National. But condition is part of the game, and it is the wise manager who figures on it and provides for emergencies who generally turns out a champion. If clubs would profit by past seasons, the experience would not be without value, but as a rule they are always looking to the future and seldom take a leaf out of the past.

The World's Series. Environment has much to do in the picking of a winner of the world's series. Naturally Philadelphians can only see the Athletics and New Yorkers, the Giants. The followers of each predict that their favorites will clean up in short order. Form players feel that the series is an even proposition, though the American League champions have a slight advantage by having so easily beat the Cubs a year ago, but even this is offset by the Giants' equally easy victory six years back. There have been many changes in both teams since the two met, changes that have been for the better, and though the two star pitchers who battled in the former series are from all accounts, to meet each other again, it is an open question whether Mathewson has worn as well as Bender. Athletic supporters predict that the champions will bat "Big Six" all over the field, yet in looking over his record of the past season memory will recall but a very few times when "Matty" got bumped hard. One thing favors Mathewson over Bender, and that is his ability to pitch almost every other day, while the "Chief" is only at his best when worked not oftener than once a week. So those banking on the Athletics hammering Mathewson had better reform their dope. Those who think that six years have made a big difference in Mathewson's effectiveness when the Athletics failed to score off him in four of the five games then played, have only to remember that in the post season series with the Yankees last year it was Matty who won four straight games. Taking the season through, Bender has pitched the better ball, been more effective, and has had fewer runs and hits made off his pitching, but then he was not called upon as often as he probably will be during the approaching series. Sizing up the pitching stars of the two teams, there does not appear to be much to choose from, and victory or defeat will rest with the men behind.

Much Depends Upon the Pitchers. There is, of course, no way of figuring on what the pitchers may do in the all-important series. They may fall far short of their past season form, but if the stars fail to live up to their reputations both managers are well provided with first class men. The Athletics have somewhat the better staff, as in Coombs, Plank, Morgan and Krause Manager Mark has a squad that more than offsets Marquard, Ames, Wiltse and Crandall. Of these, Marquard has shown particularly good form, but then so has Plank, and a battle between these pitchers would be well worth seeing. Few baseball followers feel that Coombs has much of a chance to beat the Giants, for, though he won three games from the Cubs last year, his pitching the past season has not been such to warrant the belief that he can swing around to the form of former years, in which case he would be invaluable, as the more work he gets the better he pitches. In all probability the other pitchers will be kept for emergency duty and are not at all likely to work in a full game. What gives most encouragement to the followers of the Athletics is that in batting, fielding and in all-around team work the American League champions have shown ability in championship superior to anything displayed by the Giants in the games they have played here. They get runs off fewer hits by speed and a marvellously well-developed system of playing together. Therefore, if the Giants' pitchers are not able to hold the Athletics down, it is the slugs on the New York champion team cannot launch their hits effectively. McGraw's men stand a poor chance of taking the series, for the American League champions are a shifty lot and in speed or a battle of wits appear to far outclass their adversaries. Fortunately both teams are gitted with managers above the ordinary, and the games will be as much a test of their skill in leading a ball team into a championship unit as in the individual ability of the players themselves. It promises to be a history-making series, and many wonder that all attendance records for world championship games promise to be broken. All that is needed now is a good weather as favored the series last year, for the contending clubs this year are more nearly equal, better prepared for the struggle, than was the case when the Athletics tackled the Cubs.

The games will be witnessed by a number from this city including Mr. and Mrs. Robert White, Mr. Joseph Jeffries, Mr. H. H. Scott, "Squire" Myers, Gus Atherton, Gen. Schlegel, A. Schif and Pawa House.

PHIL D. MILLER DIED SUDDENLY MONDAY EVENING

Was up and Around Sunday—Met With Accident Last June Which Caused Hemorrhage.

Legions of friends throughout Licking and adjoining counties will be deeply shocked to learn of the sudden death of Mr. Phil D. Miller, the well known wool and grain dealer of this city, which occurred at his home, 146 Madison avenue, at 9:05 o'clock Monday evening of hemorrhage of the stomach. Last June Mr. Miller met with an accident, caused by a runaway, and his side was pierced by one of the shafts of a buggy, inflicting a very serious injury. It is the opinion of the attending physician that an abscess formed, which resulted in the hemorrhage which caused his death. He was up and around until a short time before his death.

The deceased was aged about sixty-five years. He was a son of Warner Miller, and was born in Mt. Vernon. When quite young he came to Newark and engaged in the grain and wool business with his brother, the late Major C. D. Miller, and later with D. C. Jewett, a former prominent citizen of Newark. For the past twenty years, however, he has been engaged in the business for himself, and has been eminently successful. Known by nearly every farmer in Licking and adjoining counties he had built up a large business in the wool buying line, and many preferred to hold their wool for him, knowing that they could rely on him at any and all times.

Mr. Miller was married to Miss Maria Howe, daughter of Mrs. Lavina Howe of Newark, in April, of 1872, and from this union three daughters were born, all of whom are living, being Mrs. Charles Sowersby of Chicago; Mrs. Judson Lewis, who lives at home, and Miss Buelah Miller, who passed away nine years ago.

The deceased was a member of Bayard Taylor Council, Royal Arcanum, and was a good citizen, one who was highly esteemed by all for his many sterling qualities of heart and mind. He was also patriotic and although he was not privileged to participate in any of the battles of the civil war, still he answered his country's call, and enlisted in the hundred days service.

The funeral services will be held on Wednesday afternoon at 2 o'clock at the house, and will be conducted by Rev. L. P. Franklin, rector of Trinity Episcopal church. The interment will be made in Cedar Hill cemetery.

GRAY HAIR MAKES YOU LOOK OLD

A Simple Remedy Brings Back the Natural Color—Dandruff Quickly Removed.

How often one hears the expression, "She is gray and beginning to look old." It is true that gray hair usually denotes age and is always associated with age. You never hear one referred to as having gray hair and looking young.

The hair is generally the index of age. If your hair is gray you can't blame your friends for referring to you as looking old. You can't retain a youthful appearance if you allow your hair to grow gray. Many persons of middle age jeopardize their future simply by allowing the gray hair to become manifest. If your hair has become faded or gray, try Wyeth's Sage and Sulphur Hair Remedy, a preparation which a chemist by the name of Wyeth devised a few years ago. It is simple, inexpensive and practical, and will banish the gray hairs in a few days. It is also guaranteed to remove dandruff and promote the growth of the hair.

It is a pleasant dressing for the hair, and after using it a few days, itching and dryness of the scalp entirely disappear.

Don't neglect your hair. Start using Wyeth's Sage and Sulphur today, and you will be surprised at the quick results.

This preparation is offered to the public at fifty cents a bottle and is sold and recommended by all druggists.

A Cup Full of Coffee Satisfaction

THAT is what every cup of Fitch's GRAINS OF HEALTH is. It smells like good coffee—it tastes like good coffee. But it has not one of the bad after-effects of coffee.

It won't hurt the most sensitive stomach. It is good for it—tones up the digestion—and at the same time gives the palate all the pleasure that the finest coffee ever sold can give.

Fitch's Grains of Health

The Coffee Substitute With the Coffee Taste

is as different from the ordinary tasteless or vile tasting coffee substitutes, as maple syrup is different from castor oil.

Many cannot tell Fitch's GRAINS OF HEALTH from coffee. Try it today and know for yourself how good it is. Drink all you want. The more the better. Physicians recommend it.

Fitch's GRAINS OF HEALTH is sold by all leading grocers. The price is 30 cents the pound package. It is ground, ready for use. It is just as easy to prepare as coffee. But only half as much Fitch's GRAINS OF HEALTH is required as coffee—a teaspoonful to a cup. Therefore it really costs only half as much as good coffee.

If your grocer cannot supply you, write us, mentioning his name, and we will send you a generous sample package of Fitch's GRAINS OF HEALTH (enough to serve a large family at breakfast) and a booklet telling you all about Fitch's GRAINS OF HEALTH. Enclose 6 cents in stamps for postage.

TO UNCLOG THE PORES
REMOVE STEELING SKIN.

"Clogged pores are the cause of many complexion difficulties," according to Dr. Hannu Ward. "This condition makes the skin coarse in texture. It interferes with elimination of waste matter, producing a muddy or blotchy complexion, eruptions and other defects.

"To open and cleanse the closed pores there is nothing more effective than ordinary mercurized wax, used as you would cold cream, but not rubbed in. It should be applied at night and washed off in the morning. Mercurized wax, to be had at any drug store, will also remove the effects of the condition referred to. That is, it removes the undesirable complexion itself, with its disfiguring marks. Possessing a peculiar absorbent power, it flakes off the soiled skin in minute particles, but so gradually there is no irritation or inconvenience. It is recommended in preference to cosmetics, as the new complexion it reveals is a perfectly natural one."

SPECIAL MEETING
OF CITY COUNCIL
MONDAY EVENING

A special meeting of the city council was held Monday evening when an ordinance was passed transferring funds to take care of the purchase of bonds issued to take up the notes given in payment for the old water company's plant, and to provide money to finance certain proposed street improvements.

All members of council were present and after a brief caucus at which the transfer was explained, the body went into regular session when the transfer was accomplished.

Councilmen and city officials in brief addresses explained the necessity of the transfer. Service Director Christian stated that certain improvements, particularly the grading and graveling of Linden avenue and the grading of Ridge Avenue should be done this fall and that as no funds were available, it was deemed wise to transfer certain unused funds for this purpose.

He explained further that the proposed city barn to be constructed near Church street, east of the B. & O. tracks required additional funds as the semi-annual appropriation in July did not provide a sum to money equal to the architects' estimate of the cost of the work and the service department thought it wise to do the thing right while it was being done.

Mr. Elsner recalled the fact that the finance committee cut the appropriation for street repair work \$1000 and that this fund was short about that amount to complete repairs as planned.

The ordinance was passed under suspended rules.

Bruce Stewart, residing north of the city, presented a claim of \$200 for damages resulting from the laying of water mains along the highway in front of his property and through his land. The claim was referred to the committee.

A resolution was adopted to pay Charles S. and John Neighbors of Manning street for damages resulting from injuries received by them in an accident which occurred while Manning street was being repaired.

MAN ARRESTED
HERE WANTED
FOR FORGERY

Coshocton, O., Oct. 10.—Newton Wright, who was arrested at Newark Saturday for the theft of a horse near Frazeysburg is wanted in Warsaw for the forging of a note for \$175 on the bank of that place. The alleged forging was done six years ago and the officials have been on the lookout for Wright since that time. Nothing was heard from him during that time until Saturday morning when the arrest was made. Wright was given a preliminary hearing in Frazeysburg Saturday and in default of payment of bond was bound over to the grand jury and committed to the Muskingum county jail at Zanesville to await a hearing.

It was at first thought that Wright was wanted in this city for forgery and the officials here were notified Saturday of the arrest. A hasty examination was made but it failed to disclose any forgery charges against the man. Later it became known that Wright was wanted in Warsaw and not in this city. The note for \$175 was forged six years ago and the names of Wright's father and two other well known citizens were signed to the paper.

The theft of the horse near Frazeysburg was a very crime and it is thought that Wright will receive a heavy sentence for the two crimes. He already possesses a penitentiary record having served three years in the Ohio pen following conviction on a charge of burglary.

Is the World Growing Better?
Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould of Pittsfield, N. H. Finding good health by taking Electric Bitters she now advises others sufferers everywhere to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They will help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see 50c at F. D. Hall's.

New York, Oct. 10.—Arrangements for the funeral of Cornelius N. Bliss, secretary of the interior under President McKinley have not been completed. It was stated today.

Mr. Bliss' death was due directly to heart failure, though his health had been failing for a year. He was 78 years old. Besides holding the presidential appointment, Mr. Bliss was treasurer of the Republican national committee in four successive campaigns.
